## SUMMARY

1.6 years of front-end development experience, specializing in creating responsive and user-friendly web applications.

## EXPERIENCE

### Nandishi Software Private Limited

Sept 2022 – Ongoing

Jaipur | React-Native

- Utilized CSS, HTML5, and JavaScript to craft engaging and interactive landing pages, enhancing the overall user experience.
- Implemented user interface (UI) designs and ensured data integrity by validating user input, particularly focusing on form submissions.
- Developed cross-platform mobile applications for iOS and Android using the React Native framework, delivering consistent native experiences.
- Employed Next.js and the Tailwind CSS framework to streamline the development of website project, optimizing performance and aesthetics.
- Contributed to the quality assurance process by working on Detox End-to-End Testing, with a focus on authentication screens.

### Gempulse InfoTech Private Limited

May 2022 – Aug 2022

Jaipur

- Utilized HTML, CSS, Bootstrap, JavaScript, and jQuery to create dynamic and visually appealing web solutions.
- Developed responsive websites, ensuring functionality and optimal user experience across various devices and screen sizes.
- Executed advanced jQuery functions to enhance website interactivity, resulting in improved user satisfaction.

## PROJECTS

### Utiliron App

#### Nandishi Software Pvt Ltd

Feb 2023 – Present

Jaipur

- Developed a versatile product providing services for Gas, Water, and Electricity, meeting the needs of customers efficiently.
- Collaborated with a cross-functional 3-team members and clients, ensuring the execution of project objectives.
- Implemented innovative front-end solutions to create responsive and dynamic user interfaces, aligning with project requirements and user expectations.
- Played a vital role in quality assurance by identifying and resolving issues, troubleshooting, and bugs throughout the production life cycle.

### Admin Portal

#### Nandishi Software Pvt Ltd

Sept 2022 – Feb 2023

Jaipur

- Actively participated in the initial adoption of the React.js library, contributed to modern front-end development practices.
- Efforts to rewrite HTML code, aligning it with industry best practices and company SEO and Accessibility, thereby improving the portal's visibility and usability.
- Tested, debugged, and deployed code to support development team, ensuring the reliability and functionality of the Admin Portal.
- Utilized a combination of HTML, CSS, and JavaScript to design and develop more than 50 + responsive pages for client-facing projects, enhancing the user experience.
